

Russian River Collection

inspired by everything beautiful

Featured in this brochure is the innovative collection called Russian River. This dramatic offering features white oak presented in a reclaimed, rustic look in stunning 7' long multi-width planks, currently available in seven beautiful stain colors. Russian River represents our continued commitment to provide the highest quality flooring, utilizing the latest manufacturing technology, while creating leading edge, distinctive styling.

Fashion

To convey a “reclaimed” look, we’re using character grade white oak with varying texture treatments. Random surface applications of wire brushing, skip sawn marks, smoked treatments and stain variation creates a unique long plank, rustic visual in a multi-width format. Our UV cured oil finish provides added protection and a rich wood appearance.

Russian River Collection

3 1/4", 4", 6" Multi- Width, 7 ft Longstrip
5/8" Thickness – 4 mm Sawcut Top Layer

Meets Carb P2 Standards
Lacey Act Compliant

• 25 Year
Limited Finish Warranty

• Lifetime
Structural Warranty

Structure

The veneer is 4mm sawn cut for stability and solid wood look. The substrate is a U.S. patented, “double frame” construction that features Southern yellow pine for improved load bearing and fastener-holding capacity. Flooring moisture content is controlled at 8-10%.

Responsible

Lacey Act Compliant, glues and PPG varnishes VOC FREE. Formaldehyde emissions independently tested at 0.006 ppm. Use of renewable southern yellow pine.

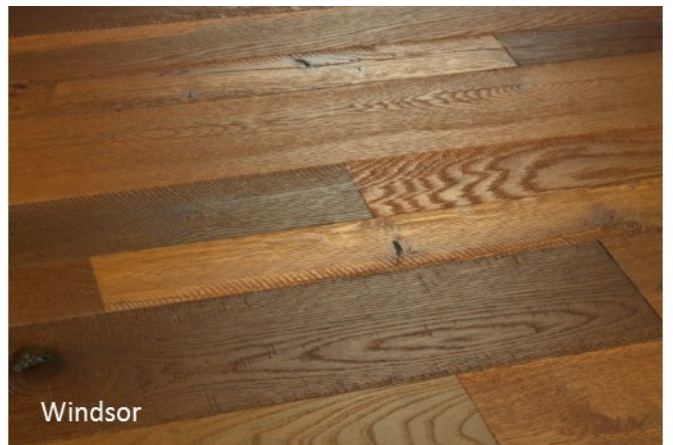

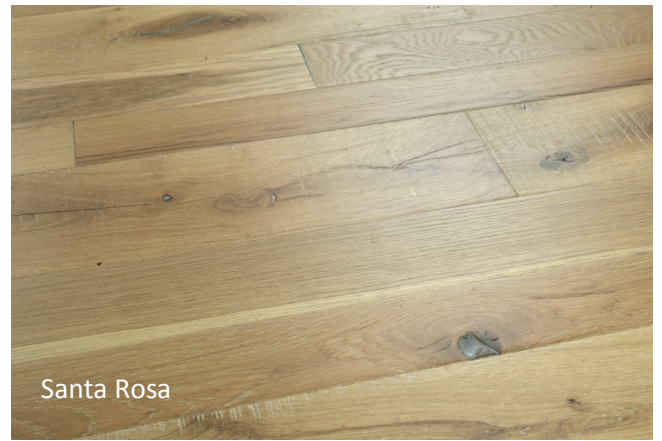

Additional

Russian River can be used in vertical applications like custom wall treatments.

This flooring is a natural product featuring a reclaimed look, no two boards are alike. Although we design our samples to be the closest representation of the actual product, the finished floor may contain more or less variation in knots, saw marks, splits, cracks, mineral streaks, over wood, face undulations, high color contrast, gaps. Keep in mind samples under varying light source including sunlight and room colors may appear different than the new floor it represents.

Russian River Collection

Color	Bodega Bay
Species	White Oak
Janka	1360
Texture	Wire Brushed, Skip Sawn
Thickness	5 / 8 " (15 mm)
Top Layer	4 mm Sawncut
Substrate	Southern Yellow Pine, Patented, Double Frame
Width	3 1/4", 4", 6" Multi - Width
Length	84" Longstrip (2130 mm)
Grade	Character
Finish	UV Oil, VOC Free
Installation	Glue Down, Nail Down
Available Trims	Stair Nose, T-Mold, End Cap, Reducer, Qtr Round

Meets Carb 2 Emission Standards
Independent 3rd Party Certified

Lacey Act Compliant

25 Yr. Residential Finish Warranty

Lifetime Residential Structural Warranty

About Russian River

Russian River floors are a natural product and must be inspected and approved by the consumer for color and grade at the time of installation. Character grade (CD) in Russian River specifically calls for color variation, open and filled knots of all sizes, mineral streaks, face checks, filled and unfilled cracks, gouges, chiseled voids, and other natural characteristics not listed above. Any product that is not visually appealing or is suspect in quality to the consumer or the installer must not be installed. Any flooring installed will be considered acceptable. Russian River has been rough sawn and has chiseled edges and as such creates a heavy textured unique plank that is highlighted by the natural characteristics of the wood. Russian River can snag some cleaning mops or socks and tear the wood. This is not a product defect, but an inherent part of the texturing effect in this design.
