

Grout Admix

Bolick Distributors

The Tile Doctor Grout Admix provides one easy step to super charge your cement grout. Mix with sanded and unsanded cement grouts in place of water per grout manufacturer's use directions in indoor and outdoor applications.

- **Seals, protects, and strengthens grout**
- **No need to seal after curing**
- **Same stain resistance as most grout sealers**
- **Grout and seal in one step**
- **Low VOC formula**
- **Features water repellent technology**
- **Shields grout from mold and mildew buildup**
- **Easy to clean**

Mixing Instructions:

Mix full units only. Mix one 25 lb bag of grout with one 70 oz. unit of Tile Doctor Grout Admix. If additional liquid is needed-add 5 to 6 ounces of water. Do not add more admix. These directions are critical for the success of the installation. This material like epoxy must be mixed in full units.

Coverage:

Will result in coverage ranges expected from grout manufacturer's normal use directions.
